**PLAYERS DESERVE BETTER COACHES**

# FOOTBALL TACTICS EVOLUTION 2020

During this intense 5-day course coaches will first of all learn that (non-)verbal communication between players is of the highest order in football and can be improved with Football Tactics. Therefore, Raymond Verheijen will present on the principles of communication.

## Methodology

Every coach uses exercises like tactical games, position games, passing games and football fitness games. Coaches will learn that these are not independent exercises in itself but should all contribute to the playing style development. Therefore, Raymond Verheijen will present on how to develop methodological steps within each type of exercise. How can the demands within these exercises be increased to gradually overload the communication between players from week to week and from month to month? Next, the coaches will practice this way of thinking themselves by developing methodology for exercises they frequently use with their own team.

## Tactical Principles

A playing style is based on tactical principles. These principles for:

- 1) attacking,
- 2) transitioning from attacking to defending,
- 3) defending
- 4) transitioning from defending to attacking,

should be integrated in all of the above exercises. Therefore, BMG assistant coach Rene Maric will present on implementing tactical principles within exercises. Next, the coaches will practice how to implement these principles themselves within their own exercises.

## Football Tactics Periodisation

The exercises and the methodological steps within these exercises are all building blocks for coaches to develop a Football Tactics Periodisation for their team. Within a 48-week team periodisation, the delegates will methodologically plan the development of attacking, defending and transitioning from day to day, week to week and month to month.

# TERMS & CONDITIONS

## Practice what you preach

By registering for this course the delegate confirms he or she will arrive in time before the start of the course and will not depart any earlier than the closure of the course on the final course day. During the course delegates will have the same professional behaviour just like they expect from their players on a daily basis.

## Dressing room learning environment

As a coach you take your players outside their comfort zone to allow them to improve. You create uncomfortable and challenging situations for your players and you expect them to deal with it. This is what we call overload. Raymond Verheijen is well-known for applying this exact same principle when educating coaches. So, this course will not be your normal comfortable coaching course. Raymond will create his famous challenging and uncomfortable 'dressing room' environment to help you accelerate your development as a coach. Please only register if you are ready to challenge yourself.

## Cancellation and refund

If the delegate decides to cancel the registration the refund of the delegate fee will be as follows:

After registration and before January 1, 2020 = 75% refund

Before February 1, 2020 = 50% refund

After February 1, 2020 = No refund

The above conditions are based on the cancellation conditions of both the hotel. The cancellation must be received in writing and the date of cancellation is that upon which the written cancellation is received by us.

## No family policy

The Mentorship is an intensive week of coach education without any distraction. So, delegates will not be joined by friends and/or family during the course.
